PROFESSIONAL SUMMARY

Cloud Engineer with 13+ years in IT, primarily in the banking sector, specializing in scalable AWS solutions. Experienced in support, enhancement, and infrastructure projects with strong problem-solving skills. Proven track record in issue resolution, reporting, and improving operational efficiency. Committed to continuous learning and leveraging cloud technologies for innovation and collaboration.

PROFESSIONAL EXPERIENCE

Assistant Consultant – AWS Cloud Operations Engineer

Tata Consultancy Services

📅 Oct 2019 – Present 📍 Bangalore, India

- Designed and implemented IAM strategies aligned with cloud security principles, including least privilege access, password policies, audit logging, and privileged access management.
- Developed and managed CI/CD pipelines with AWS Code Pipeline, Code Build, and Code Deploy to automate application and infrastructure deployments.
- Automated infrastructure provisioning using Infrastructure as Code (IaC) tools such as AWS CloudFormation and Terraform to enable repeatable and consistent environments.
- Managed Azure operations, including provisioning virtual machines, configuring resource groups, administering Azure Active Directory (AAD), implementing role-based access control (RBAC), and automating routine tasks.

AWS Cloud Engineer

Accenture Services Pvt Ltd

📅 Jul 2016 – Oct 2019 📍 Bangalore, India

- Managed AWS infrastructure, including VPCs, ELBs, EC2 backups, and S3 data migrations.
- Automated deployments of security tools (Tanium, Qualys, Alert Logic).
- Led cross-account AWS migrations involving AMIs, virtual machines, and Lambda functions; managed S3 bucket creation and data transfers; and configured IAM roles to ensure secure, seamless resource migration and access control.
- Maintained Git repositories and implemented branching, merging, and tagging strategies using Git on Linux platforms to support DevOps workflows.

Linux Administrator

Accenture Services Pvt Ltd

📅 Nov 2011 – Jun 2015 📍 Bangalore, India

- Developed and maintained shell scripts to automate routine tasks while proactively monitoring server performance and resource utilization to ensure optimal system health and availability.
- Analyzed system logs to identify performance bottlenecks and security issues, and executed timely updates, patches, and kernel upgrades to ensure system stability and compliance.

CORE COMPETENCIES

Cloud Platforms(AWS,Azure)

Infrastructure as
Code(Terraform,CloudFormation)

DevOps Tools(CodePipeline,
CodeBuild, CodeDeploy, Azure DevOps,
Git, GitHub Actions)

Automation & Scripting(Bash,
PowerShell)

Security & Compliance(IAM, KMS, SSO,
MFA, Ping Federation,
Security Groups, NACLs, AWS Config, AWS
Inspector)

Networking(VPC, Subnets, NAT Gateway,
Load Balancers)

Monitoring & Incident
Management(JIRA, CloudWatch)

Operating System(Linux and Windows
Server)

EDUCATION

Bachelor of Engineering

Raajdhani Engineering College,BPUT

📅 May 2010 📍 Odisha, India

Information Technology

CERTIFICATIONS

AWS Certified SysOps Administrator

AWS Certified Solutions Architect – Professional

Microsoft Azure Fundamentals

ACHIEVEMENTS

Awarded for Training Initiatives

Leveraged AWS expertise to empower 1500 associates with cloud-based skills.

Security Achievement

Recognized and received a contextual master award for ability to quickly deploy security measures and protect client data.
